Sink

```
export interface Sink<A> {
  event(time: Time, value: A): void;
  end(time: Time): void;
  error(time: Time, err: Error): void;
}
```

Events - (time, A) pairs

Sink<A>

Stream

```
export interface Stream<A> {
  run (sink: Sink<A>, scheduler: Scheduler): Disposable;
}
```

Stream\<A\>

Events - (time, A) pairs
